Francis Archambault

Dynamics 365 Business Central Solutions Architect ERP & Digital Transformation

PROFESSIONAL SUMMARY

Dynamics 365 Business Central solutions architect with 10+ years of experience in multi-site ERP/WMS digital transformation. Expert in leading discovery workshops, designing functional architectures aligned to business processes, and guiding stakeholders throughout the full ERP lifecycle. Recognized for driving complex deployments across 5 sites, cutting external consulting costs by 90%, and simplifying technical concepts for all audiences. Bilingual (FR/EN), ITIL certified.

PROFESSIONAL EXPERIENCE

Dynamics 365 Business Central Solutions Architect

- Groupe AFFI2017 – Present
- Owned the full ERP lifecycle across **5 sites**: discovery workshops, functional architecture design, and go-live delivery
 - Designed and deployed Dynamics 365 Business Central and Warehouse Insight, aligned to business processes, budget constraints and timelines
 - Automated production workflows, reducing manual task time by over **80%**
 - Cut external consulting costs by **90%** by internalizing functional architecture expertise
 - Integrated and automated client and supplier workflows via EDI, REST APIs, and Make.com
 - Designed and supervised the eCommerce integration platform
 - Transferred knowledge to the IT team through functional spec coaching, architecture reviews, and structured project delivery

WMS Coordinator

- Groupe AFFI2016 – 2017
- Analyzed requirements, designed implementation scenarios, and led the HighJump WMS deployment
 - Configured, tested, and validated the solution with operational stakeholders
 - Supported daily operations and resolved gaps between requirements and delivered solution

Site Supervisor

- Groupe AFFI2015
- Supervised a team of supervisors and warehouse staff
 - Managed production, distribution, and warehousing operations
 - Optimized operations and maintained client relationships

EARLIER EXPERIENCE

- Groupe Novatec2011
- Created work order sheets and OHS procedures to improve safety and process efficiency.
- Pratt & Whitney2012
- Managed warehouse management system and led a slow-moving inventory reallocation project to a 3PL.
- IILM2013
- Conducted company visits to initiate technology transformation projects and secured grant funding.
- CUSM Project2014
- Developed a route optimization system for organ donation and laboratory sample delivery.
- 24h Innovation – Peru2014
- Developed innovative solutions as part of an international team competition.

EDUCATION & CERTIFICATIONS

- Operations Engineering & Logistics
ÉTS2010 – 2014
- Business Management
Collège Édouard-Montpetit2007 – 2010
