Francis Archambault

Senior Principal Analyst & Business Central Solutions Architect

PROFESSIONAL SUMMARY

Information technology leader with over 10 years of experience, specializing in digital transformation and ERP/WMS solution architecture. Recognized for driving complex multi-site deployments, automating business processes, and drastically reducing operational costs. Leverages emerging technologies (AI, no-code/low-code automation) to deliver measurable business gains.

PROFESSIONAL EXPERIENCE

Senior Principal Analyst & Business Central Solutions Architect

Groupe AFFI	2017 – Present
- Led simultaneous ERP/WMS deployment across 5 sites, from requirements analysis to go-live - Architected and deployed MS Business Central and Warehouse Insight as the primary internal resource - Automated production outputs, reducing manual task time by over 80% - Cut external consulting costs by 90% by internalizing functional expertise - Integrated and automated workflows with clients and suppliers via EDI and REST APIs - Built and supervised the company's eCommerce platform - Coached the IT team on writing functional specifications and delivering projects end-to-end	

WMS Coordinator

Groupe AFFI	2016 – 2017
- Managed WMS operational processes and provided daily operations support - Conducted needs analysis, system configuration, and testing - Led the deployment of the HighJump WMS software	

Site Supervisor

Groupe AFFI	2015
- Supervised a team of supervisors and warehouse staff - Managed production, distribution, and warehousing operations - Optimized operations and maintained client relationships	

EARLIER EXPERIENCE

Groupe Novatec	2011
Created work order sheets and OHS procedures to improve safety and process efficiency.	
Pratt & Whitney	2012
Managed warehouse management system and led a slow-moving inventory reallocation project to a 3PL.	
IILM	2013
Conducted company visits to initiate technology transformation projects and secured grant funding.	
CUSM Project	2014
Developed a route optimization system for organ donation and laboratory sample delivery.	
24h Innovation – Peru	2014
Developed innovative solutions as part of an international team competition.
